MINERS ACCEPT WILSON OFFER

Operators Refuse and Agreement Is Reached to Negotiate in Central Field.

Washington, Nov. 15.—After a long wrangle today representatives of the coal operators and miners in conference here agreed to take up settlement of wage and labor conditions in the central competitive field after they had failed to agree on considering a national scale as first proposed.

CALLS SCALE COMMITTEE.

Adjourning the general conference, Secretary Wilson then summoned the wage scale committees of the central competitive field to meet at 2:30 p. m. today to negotiate a new wage agreement.

Operators from districts outside the central competitive field will meet at the same hour to determine whether the agreement of the central competitive field will be accepted as a basis for outlying districts.

LEWIS FAVORS WILSON PLAN.

Acceptance without qualification by the mine workers of Secretary of Labor Wilson's proposal for negotiation of a nation-wide wage scale agreement was announced early today by John L. Lewis, acting president of the United Mine Workers of America.

LUKENS OBJECTS.

Speaking on behalf of operators outside the central competitive field, F. W. Lukens, president of the Southwestern Interstate Coal Operators' association, proposed returning to the old policy of allowing the basic scale to be negotiated by the operators and miners in the central competitive field.

Because outlying operators are not organized, Mr. Lukens said no time should be wasted, but that "public interest in an early settlement makes it desirable to continue as in the past."

LEWIS CHARGES BAD FAITH.

Mr. Lukens' statement immediately brought from Mr. Lewis a charge of bad faith.

"The charge of bad faith comes with particularly poor grace from the mine workers," Mr. Lukens retorted, "while the country is tied up with a strike which the government says involves a violation of their agreements by the mine workers. They have struck not only in districts where there was a possible question concerning their agreement but they have also struck in districts where there was no question but that they had valid and binding agreements———"

PASSES THE LIE.

"I deny that statement," President Lewis interrupted, "and I challenge the truth of your assertion."

Cries of "let's have your proof," from the mine workers' representatives followed and Secretary Wilson called for order.

"It is one thing to make a state or a district contract," Mr. Lukens continued, "and another and a more difficult thing to make a national agreement. The people of the United States would freeze to death before a national wage scale agreement would be made as Mr. Lewis well knows. His statements are intended to cloud the issue and hoodwink the public. The operators are acting in good faith, that is shown by the fact that the government is with them absolutely."

Charging that the operators in the outlying districts had led miners and the public to believe that they were ready to negotiate with the miners, Mr. Lewis exclaimed:

"Ye Gods, is there no more good faith left in man? Are the mine workers of America to be the everlasting victims of bad faith on the part of the people with whom they have to deal?"

MISREPRESENTED.

After announcing his acceptance of the secretary's suggestion, Mr. Lewis said:

"I want to express my utter amazement at the attitude of the coal operators as stated by their spokesman, Mr. Lukens. If there is any one thing which has crystallized public sentiment against the mine workers it has been the oft-reiterated cry that the outlying operators had not been presented with demands by their workers, although they stood ready and willing to negotiate a wage scale.

READY TO NEGOTIATE.

"We stand here with spotless robes ready to negotiate a scale in the various states outside the central competitive fields. Mr. Lukens proposed to the government of Missouri that they were ready to negotiate with the miners in Missouri, but Governor Gardner wired me in protest and the governors of West Virginia and other states have done likewise."

NEED THE RAISE ASKED

President Lewis sharply denied charges of bad faith over the coal strike and the negotiations and William Green, secretary-treasurer of the mine workers' union, took exception to Secretary Wilson's statement of Friday that a sixty-per cent increase in coal miners' wages was impossible. Green said that the federal government should see that the miners got that much increase to allow them an American standard of living.

HONEST ENDEAVOR

"We come in good faith in an honest endeavor to reconcile difficulties," President Lewis said, "and you Mr. secretary, representing the government propose, a plan which we accept, not because it is the best plan, but because the public has been told for weeks that it is the plan the operators wanted."

ASKS PRESSURE ON OPERATORS

The secretary-treasurer of the United Mine Workers was recognized.

"You asked the United Mine Workers some weeks ago to negotiate a wage scale covering the central competitive field" he said, "and they agreed. The operators' answer to the same request was a refusal unless the strike was withdrawn. Again we hear a refusal of the proposition made by you as a representative of the federal Government.

"How long is this situation to continue? The mine workers accepting every request of the federal Government and these men on the other side accepting nothing. It is unfair that one side of this controversy should be constantly influenced to yield by coercion and more pressure. The question now is when will the Government tell the operators what they must do.

WANT DECENT WAGE

"The federal Government has dragged the workers' representatives into court and told them what to do." Green said, "Every American is interested in the miners getting a decent American wage and that thought should be uppermost in the minds of federal Government officials. If it takes a 60 per cent increase of wages the federal Government should see that they get it.

NOT IMPOSSIBLE

"I take exception to the statement of the chairman that the demands of the miners are impossible. Let's not prejudice the miners' case before the public before we have gone into conference.

"Our Government has treated the miners unfairly. I feel bitter in heart and soul regarding the action the Government has taken. The miners have not been given a fair deal."

NOT ASKED TO WORK.

R. M. Clark, president of the Association of Bituminous Coal Operators in central Pennsylvania expressed amazement at the charges of bad faith in the face of the walkout on November 1, in violation of contract.

Mr. Clark contended that Pennsylvania operators should negotiate their own contracts and that the difficulties of other states should not be dragged into the discussion.

Operators were ready to resume negotiations he said on the basis suggested by President Wilson and they would not ask the mine workers to resume work as a condition of resuming negotiations.

When President Lewis, for the miners, announced that they would go into a conference involving the central competitive fields only, he added:

"We will go anywhere relief may be obtained, but in so doing we hope and trust that we will get the consideration due to man."

Mr. Lewis inquired whether the agreement arrived at by the conference of the central competitive field wage scale committees would "apply in basic form to outlying districts, and are our men in a position to return to work with that understanding."

The question was referred to F. W. Lukens, representing the operators but as he said that he could only speak for the western district and north West Virginia, Secretary Wilson asked all outlying operators to meet separately at 2:30 to formulate a reply to that question.

"NATIONAL" CONFERENCE?

At the end of a long debate Secretary Green of the mine workers demanded to know if telegrams of instruction sent to the operators and the miners had not been an invitation to a "national" conference and Secretary Wilson replied that they were but that he would prefer the questioner to draw his own deductions.

FORMER AGREEMENT.

"I want to call your attention to the conference held with me ten days or two weeks ago," said he. "I then proposed that the wage scale committees in the central competitive field proceed to negotiate a wage scale without reservation. That was accepted by the miners and by the operators providing that the strike order was withdrawn. The withdrawal of that strike order has now been accomplished by the court.

"I now ask if you're ready to proceed on the basis of my third proposition, that of the central competitive field."

Representatives of miners and operators agreed, the miners reluctantly.

TIRED OF RECEDING.

"Again we agree to go forward on the plans laid for us by some one else," said President Lewis. "We accept your proposition. But in God's name let us say we art tired of receding. We now look for some consideration for the 472,000 human souls that asked for bread and got a stone. We've been told of the business necessities and the property rights and the requirements of owners of industry, and we want to get now into some court that will give some attention to the human rights involved in the demand for shorter hours, more pay and better working conditions. We agree in the hope that this is the way to such a tribunal.

Wilson Offers Three Plans

Washington, Nov. 15.—Demands of coal miners for a 30 hour week and a 60 per cent increase in wages and an unyielding position by the operators, alike were declared "impossible" by Secretary Wilson in opening today the conference called to bring peace to the bituminous coal fields of the nation. To obtain this peace the secretary proposed three plans of procedure.

PEOPLE MUST PAY.

Declaring that the Washington wage agreement still is legally in force, Mr. Wilson told the operators and miners that the people of the United States were not "Shylocks" and do not want to exact "the technical provisions of a bond when the conditions under which the bond was made have changed." He added that "if any great change is made in the contracts the people of the United States are the ones who will have to pay" and throughout his remarks emphasized the public interest in the coal settlement.

THREE PROPOSALS.

The three proposals expected to aid the two factions in arranging the new wage agreement were set forth by the labor secretary as follows:

First, negotiation through joint wage scale committees, representing all districts.

Second, negotiation through concurrent sessions of committees from the various districts, and,

Third, negotiation first of an agreement in the central competitive field and then of agreements for other fields with that of the central district as a basis.

ADJOURNMENT.

After hearing Secretary Wilson the conference adjourned until 10 o'clock Saturday to permit the miners and operators to discuss separately the plan which would be most acceptable to each.

Indication of a conflict on the scope of the agreement to be negotiated involving the question of recognition of non-union workers developed at the outset of the conference and became more apparent in the two group meetings which followed:

Pay Strengthens Illinois Miners

Springfield, Ills., Nov. 15.—Illinois soft coal miners were encouraged to continue their strike today by the receipt of pay envelopes for two weeks' work ending November 1, held back up operators under their wage rules.

LAST HALF MONTH WAGES.

Operators here estimated that the money paid to the mine workers for the half month period, when production was speeded up in anticipation of the mine tieup, would approximate $8,000,000. They reached this figure by multiplying the total estimated tonnage for the two weeks, amounting to 4,000,000 tons, by $2.00, said to be a basic average of the cost per ton paid into the pockets of the miners, including diggers, day men and all other union mine workers.

HIGHEST.

The highest pay for a digger employed by the Springfield district coal mining company for the two weeks was $188.45 net. Three men earned more than $160, and the pay ranged to a point below $100.

Field reports to miner's headquarters today indicated a stand pat attitude against any resumption of work until something tangible is offered by the joint scale committees in the way of a new agreement.

FULL DEMANDS.

John Watt, who with Freeman Thompson, president of the Springfield sub-district, was a leader of an insurgency movement among Illinois miners last summer, expressed the belief that coal diggers in the 12th district would not take kindly to the statement of Secretary Wilson that miners' demands were "impossible."

"Unless the miners get their full demands as formulated at the Cleveland convention," Watt declared, "the new agreement will have to go to a special convention at Indianapolis which would require two weeks to assemble."

Fuel Shortage Near Alarming

Chicago, Nov. 15.—Virtually no increase in the number of bituminous coal miners returning to work was looked for today. Saturdays generally having been regarded as at least a half holiday at many of the country's mines.

Aside from that the miners seemed intent to stand on their expressed determination not to return to work, despite recall of the strike order last Tuesday by John L. Lewis, acting president of the United Mine Workers of America, until operators and miners now meeting at Washington effect an agreement on a new wage scale.

FUEL SHORTAGE

Meanwhile the threatened fuel shortage in many places became more ominous, with the advent of winter weather. At Chicago the available supply of coal had been diminished to 350,000 tons, and the regional coal committee restricted fuel allocations.

SOME WORKING

Improvement in the general situation was shown today in Wyoming, however, seven thousand miners agreeing to return to work at once under settlement of the controversy between miners and operators. Colorado and Alabama showed some coal production, with non-union mines in Pennsylvania reported operating at normal capacity and some West Virginia coal being brought up.

NONE TO WORK

In the great Illinois fields, virtually no work today had been done since the strike was called more than two weeks ago, and resumption of work, union leaders said, was conditional on any agreement made at Washington.

No union mines in the Pennsylvania district were expected to operate today, and in the West Virginia district the strike situation as concerned the union fields, was said to be in a state of "orderly chaos." In some mines where production had been resumed, new walkouts occurred yesterday.

ALARMING SHORTAGE

Because of little mining done in the Indiana district and little prospect for early resumption, the fuel situation there today was regarded as becoming alarming, with a similar condition prevailing in Kansas, where it was uncertain when the approximately 10,000 union miners would go back to work.

"TILL H—L FREEZES."

Springfield, Ill., Nov. 15. — At a meeting last night in Riverton, Sangamon county, mine workers declared in resolutions they would not return to work until a satisfactory agreement was signed, "even if that time should be long enough to insure that hell be transformed into a frozen pond." The resolutions condemned Federal Judge A. B. Anderson for issuing the mandate forcing miners' officials to rescind the strike call.

TWELVE ARRESTED

Morgantown, W. Va., Nov. 15.—Department of Justice agents, with eight deputy sheriffs, today arrested twelve members of the Scott's Run local of the I. W. W. They were brought here and placed in jail.

RAIL WORKERS WIN IN HOUSE

Washington, Nov. 15. — Railway workers scored a complete victory in the House yesterday through incorporation of their plan for voluntary conciliation of labor disputes in the Esch railroad bill. The House rejected a pl[illegible] compulsory arbitration includ[illegible] anti-strike provision, and also the plan written into the bill by the House Interstate Commerce committee, which was described as "middle ground" between that adopted and compulsory arbitration. No direct vote on the anti-strike proposal was taken.

THE VOTE.

On both votes the proponents of the unions' plan won by large majorities First: by a vote of 151 to 75, the House substituted the unions' plan for compulsory arbitration, and then 161 to 108 cast aside the committee plan for that indorsed by the workers. Final action came after practically the entire day had been devoted to debate of the three plans and after adoption of the workers' plan, renewed effort to include anti-strike provision met with defeat through parliamentary tactics.

THE PLAN.

The plan approved by the railroad employes, which was drafted by Representative Sweet, Republican, Iowa would legalize the machinery used by the railroads and their employes before and during federal control for the settlement of disputes, with commissions on labor disputes being added to consider cases appealed from the joint boards that first consider them.

In brief the plan divides the railroad workers into three classes and for each it establishes an adjustment board and an appeal commission. No penalty against strike or lockout is imposed and membership on all six of the boards would be restricted to the workers and their employers, and divided equally between them.

No official statement was made but it was understood no agreement could be reached on the principle of time and a half for overtime in road service of trainmen. Several minor questions also remained unsolved because they have a direct bearing on the outcome of the question.

The brotherhood leaders may meet with members of the director-general's staff during the early part of next week.

The director-general's recent statement that the discussions were entirely amicable was reiterated today. Union leaders held out hope for an agreement which would meet the demands of their constituents to a large extent.

NO EARLY SETTLEMENT.

Washington, Nov. 15.—Hope for an immediate settlement of demands of the four great brotherhoods vanished today when further sessions of the conference between Director-General Hines and the brotherhood heads were postponed indefinitely.

DRY ACT UPHELD BY THREE

Federal Judges Agree War is Not at End.

New York, Nov. 15—Three attempts to prevent enforcement of the war-time prohibition and Volsted enforcement acts failed in federal courts yesterday, Federal Judges Learned Hand, John C. Knox and John G. Rose of Baltimore, each in a different case upheld the constitutionality of the law in denying petitions seeking injunctions to restrain interference in manufacturer and withdrawal of liquor from bond.

Judge Hand denied a petition of Jacob Ruppert, Brewer, who sought an injunction permitting him to resume the manufacture of beer of 2.75 alcoholic contents.

EFFORT TO RELEASE SPIRITS

Judge Knox denied a petition to restrain William H. Edwards, collector of internal revenue, from preventing the release from bond of barrels of distilled spirits. The petitioners were Dryfoos, Bloom and company, wholesale liquor dealers, and the decision was handed down in passing on demurrers of two local saloonkeepers who sought to prevent enforcement of the act.

The third decision, by Judge Rose, was on an application by the Maryland Distilling company for an injunction to prevent Joshut W. Miles, collector of internal revenue of Maryland, from interfering in the release of large quantities of whiskey now in bond.

NATION STILL AT WAR

In commenting upon the fact that technically the nation is still at war, Judge Rose expressed the opinion that the use of beer and light wines should be permitted because of changed conditions since last spring. He added that it was not in the province of the judiciary to state when the war is at an end.

THREE MORE PETITIONS

Louisville, Ky., Nov. 15—Three more petitions for temporary injunctions restraining the Government from interfering with sale of tax-paid floor stock whiskey were filed in Judge Walter Evans' federal court today. Early hearings were promised by the court on the petitions which seek to enable the companies to sell approximately 18,000 gallons of whiskey.

DEFER CHICAGO DECISION

Chicago, Nov. 15.—Federal Judges Carpenter and Fitzhenry announced today that their decisions on the injunction proceedings brought by Chicago and Peoria liquor dealers to restrain federal officials from enforcing the provisions of the war-time prohibition law will not be delivered until some time next week. They said they had been unable to complete their decision and that it probably would be handed down next Tuesday or Wednesday.

The courtrooms were crowded with wet and dry leaders and attorneys when Judge Carpenter made the announcement.

"We have not been able to conclude our labors and it will be early next week before the decision is ready," said Judge Carpenter.

ALARMS SALOONKEEPERS.

Chicago saloonkeepers who had anticipated a favorable ruling today had made elaborate arrangements for resuming business at once.

They were surprised at the delay in the court's ruling and were not nearly as confident that the decision when it is delivered will be in their favor.

MRS. GEORGE FOR LADY ASTOR

[By The Associated Press.]

Plymouth, Nov. 15.—The appearance of Mrs. David Lloyd George, wife of the British prime minister in the electoral campaign in support of Lady Astor marked the climax of one of the most unusual political battles ever fought in Plymouth.

Although at the meeting which was addressed by Mrs. Lloyd George only women were present, it was featured by the most determined attempt made by the opposition throughout the entire campaign to silence speakers by the use of hecklers. Lady Astor was present and also spoke.

MRS. ASTOR SPEAKS

At one point, when a forced discontinuance of the meeting appeared to be threatening, Lady Astor took the floor and faced the hecklers with defiance.

Today's balloting in the Sutton constituency will decide whether Lady Astor is to succeed her husband in the house of commons and as the American wife of a British peer become the first active woman member of parliament.

Lady Astor, candidate for parliament, voted for herself early today. She was one of the first women at the polls.

GERMAN SHIPS LAWFUL PRIZES

Antwerp, Nov. 14.—The prize court has decided that 53 German boats aggregating 150,000 tons, seized by the Belgian authorities in 1914 in the port of Antwerp, are lawful prizes.

FARM BUREAU RESOLUTIONS

Chicago, Nov. 15.—A combined celebration of Thanksgiving day and armistice day, both nationally and internationally, was suggested in resolutions adopted by the American Farm Bureau Federation which adjourned to March 3, 1920, when a permanent organization will be perfected.

Between now and the next meeting the state organizations are expected either to accept or reject the formation of the federation, which will be composed of state associations, which in turn will be made up of county farm bureaus.

OFFICERS.

According to preliminary plans, direction of the federation would be placed in the hands of the board of directors, who would choose one from each state, and the Executive committee. The latter includes:

J. R. Howard, Clemons, Mich., and Silas L. Strivings, Castile, N. Y., were elected president and vice president respectively.

Other resolutions adopted, declared for suppression of radicalism, expressed gratification over repeal of the daylight saving law, approval of farm loan banks and the American Legion and declared against public ownership.

GRANGE AND UNIONS.

Grand Rapids, Mich., Nov. 15.—It is practically certain in the opinion of "insiders" in the National Grange that there will be a minority report on the question of accepting or rejecting the invitation of union labor to a conference. The committee on good of the order, to which the matter was referred, will present its findings this afternoon, according to present plans and it is predicted that the discussion which will follow will be of the most animated nature.

MAY NOT ACCEPT.

Grand Rapids, Mich., Nov. 15. — A wide divergence of views was apparent today among delegates to the convention of the National Grange over the question of accepting organized labor's invitation to the national labor conference called by leaders of the American Federation of Labor. The committee to which the matter was referred was to present its findings late today. Some delegates predicted a minority report. The forenoon session was devoted to secret work by the High Priests of Demeter.

D'ANNUNZIO LEAVES FIUME

[By The Associated Press.]

Trieste, Friday, Nov. 14.—A telegram to the Trieste stock exchange says:

"Gabriele D'Annunzio left Fiume last night for an unknown destination in a torpedo boat, followed by other ships. Rizzo was left in command of the city."

Commander Luegue Rizzo is commander-in-chief of the D'Annunzio sea forces. His daring exploit during the war resulted in the sinking of two Austrian battleships off the Dalmatian coast.

IN NEW ADVENTURE.

Paris, Nov. 15. — The American peace delegation here has received a telegram from Vice Consul O'Hara at Trieste, telling of reports that D'Annunzio left Fiume on the torpedo boat Vallo and landed on the Dalmatian coast, where he is engaged in another adventure.

WATCHING D'ANNUNZIO

Importance is attached in peace conference circles to D'Annunzio's movements, because Sunday is election day in Italy, with Fiume the chief issue. It is generally thought that he is seeking to carry out a spectacular operation to strengthen the Fiume party, which is reported in Paris to have lost considerable ground in Italy during the past three weeks.

LANDS AT ZARA.

[By The Associated Press.]

Trieste, Nov. 15.—Gabriele D'Annunzio, who left Fiume Thursday night on a new expedition, has landed at Zara, on the Dalmatian coast, according to news received here late last night.

D'Annunzio made a triumphant entry into Zara, receiving an enthusiastic welcome from the Italians who had been awaiting his coming. He is expected to continue his expedition to other Dalmatian ports.

STEEL STRIKE LEADER TALKS

Pittsburgh, Nov. 15.—At the close of the eighth week of the steel strike, John Fitzpatrick, chairman of the national steel strike committee issued a statement in which he declared that the "steel industry is crippled because the laborers in the mills, the so-called foreigners, are striking and standing like a wall in a fight for American conditions of labor and American rights."

The national committee received reports concerning the operations of the commissary system for feeding the strikers and their families, and said it was working smoothly, while substantial financial support was being received from organized labor.

Representatives of the steel companies said they had no reason to alter the statements, that the "mills are in operation and the men are returning to work."

CLOTURE RULE IS ADOPTED

Republicans and Democrats Vote Together to Limit Treaty Debate.

Washington, Nov. 15—A cloture to shut down debate on the peace treaty was adopted today in the senate.

Republican and Democratic leaders voted together for the cloture, which means that until the treaty is disposed of no senator may speak in all more than one hour. It was estimated that the step would bring final action within a week.

The vice president further held that the rejection of one resolution of ratification would not, under the cloture, prevent another being brought up in the hope of a compromise if the senate majority desired it.

The vote adopting the cloture was 78 to 16.

PARLIAMENTARY TILT

A parliamentary jam developed when Vice President Marshall undertook to state his construction of the cloture rule. Senator LaFollette, Republican, Wisconsin, made a point of order contending that the chair should put the motion.

The objection was overruled, Senator LaFollette appealed from the decision and Senator Ashurst, Democrat, Arizona, moved to lay the appeal on the table.

MARSHALL SUSTAINED

Senator LaFollette's effort to cut of the vice president's ruling was tabled 62 to 30, all of the latter being cast by Republicans, while eighteen Republicans joined the Democrats in sustaining the vice president.

The vice president then ruled when one resolution of ratification had been rejected it was possible, if a majority desired, to take up another in the hope of a final compromise. The decision bore out the stand of administration senators who hope to bring action on a resolution of their own after defeating that containing the committee reservations.

TRIED TO POSTPONE VOTE

Senator Norris, Republican, Nebraska, asked unanimous consent to postpone a vote on cloture till Monday, but Senator Borah, Republican, Idaho, insisted on action today.

Declaring all the Democrats favored cloture Senator Hitchcock asked for ruling on whether the cloture would cut off substitute reservations or other motions after its adoption, and Vice President Marshall replied he intended before submitting the cloture to a vote, to give the senate an opportunity to sustain or override his decision before the vote on cloture.

TO TAKE UP RESERVATION

After the cloture was acted upon, leaders expected to take up the third foreign relations committee reservation. The preamble and the first and second of the fourteen reservations already have been adopted by the senate. The third reservation follows:

"No mandate shall be accepted by the United States under article 22, part 1, or any other provision of the treaty of peace with eGrmany, except by action of the congress of the United States."

When the senate met, Democratic Leader Hitchcock presented several substitutes for committee reservations so as to have them within the rules, which provide that no amendments or substitutes can be offered once cloture becomes effective.

Among the measures Senator Hitchcock presented was a resolution for ratification without reservations. He put in also a ratification resolution embodying "as part of the ratification" the five substitute reservations offered by him several days ago.

Those against adoption of the cloture were: Republicans: Borah, Brandegee, France, Gronna, Johnson (California); Knox, Lafollette, McCormick; Penrose; Poindexter and Sherman.

Democrats: Gore, King, Pomerene, Reed and Shields.

RAPID FIRE ACTION

The action, invoking cloture for the first time in the senate's history resulted in immediate speeding up of the reservation program, the next reservation on the committee list being adopted within one minute without debate or a roll call. It related to mandates.

The text of the reservation adopted follows:

"No mandate shall be accepted by the United States under article 22, part I, or any other provision of the treaty of peace with Germany, except by action of the congress of the United States.

The committee's Monroe doctrine reservation was adopted by a vote of 55 to 33.

The roll call revealed the greatest Democratic strength yet shown for any part of the reservation program; nine Democrats voting for adoption. They were: Chamberlain Oregon; Gore, Oklahoma; Kirby, Arkansas; Owen, Oklahoma; Reed, Missouri; Shields, Tennessee; Thomas Colorado; Trammell, Florida and Walsh, Massachusetts.

DOMESTIC QUESTIONS.

The committee reservation relating to domestic questions then was adopted.

An amendment by Senator Hale, Republican, Maine, to the committee reservation so as to make it include questions regarding boundaries of the United States and its possessions was adopted 52 to 40, with party lines on both sides divided.

THE MONROE DOCTRINE.

Taking up the committee's Monroe doctrine reservation the Senate voted down, 51 to 43, a substitute by Hitchcock to declare the doctrine in no way "impaired or affected" by the treaty. Only two Democrats, Reed, Missouri, and Shields, Tennessee, stood with the Republicans for the committee draft.

Another substitute for the committee's Monroe doctrine reservation offered by Pittman, Nevada, proposing that the United States reserve for its disposal any question raised under the Monroe doctrine also was voted down, 52 to 42.

The reservation giving congress authority to regulate appointment of American delegates to the league and to international commissions also was adopted.

AND SHANTUNG, TOO

The Shantung reservation was adopted without change.

A substitute by Senator Pittman, Democrat, Nevada, was defeated 50 to 39.

On the Shantung reservation the vote was 53 to 41. Five Democrats, Gore, Reed, Shields, Thomas and Walsh, Massachusetts voted with the Republicans for adoption and one Republican, McCumber, voted with the opposing Democrats.

FRENCH AND BRITISH COMMENT

Paris, Nov. 15.—The French foreign office considers the reservations to the German peace treaty in the American senate as constituting a question of extreme delicacy. Persons of importance in French diplomacy express the view that the French government would be disposed to accept reservations by the American senate which would not require France and its allies to re-open questions already settled by the plenipotentiaries.

London, Nov. 15.—The adoption by the United States Senate of the reservation to article 10 of the league of nations covenant is considered insufficient to draw an official declaration from the British government as to its attitude. It is pointed out that the reservation has not been signed by President Wilson. Moreover it is noted, until the United States asks Great Britain to assent formally to the proposal it is impossible to forecast what Great Britain's response will be.

PERSHING CITED AS ORGANIZER

Paris, Nov. 15—(Havas)—General Pershing is cited in the following "Order of the Army" printed in the Official Journal:

"General Pershing as commander-in-chief of the American forces displayed most distinguished qualities as an organizer and chief. He never ceased during decisive operations to bring aid to the allied cause by his energetic and highly developed co-operation."

Charles Beck of the 126th American infantry regiment also is cited. He captured ten machine guns and killed or took prisoner fifteen of the enemy.

RAISE RATES FOR ADVERTISING

New Orleans, Nov. 15.—A resolution favoring a 25 per cent increase in foreign and local advertising rates in southern newspapers because of the increased cost of news print paper was adopted today by the advertising committee of the Southern Newspaper Publishers' association.

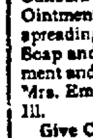
CUTICURA HEALS INFLAMED KNEE

Of Little Daughter. Blisters Caused Burning.



"My little daughter fell, hurting her knee, and her stocking poisoned it. Then it broke out with blisters causing it to burn, and her knee was inflamed. She could not bear to have anything over her knee, and she kept me up nights.

SISTER MARY'S KITCHEN

I find that if I have some definite plan of "attack" formulated for my day's work things get done a whole lot easier Hard and fast rules for doing a given task at a given time on a given day make for a routine that is rather deadly and uncomfortable to all members of a family

For instance, I do like to wash on Monday, but if for some reason it's not convenient there's no harm done and no time need be wasted On Monday I can accomplish some of the little odd jobs that have been crying to be done for days

In planning a day's work the preparation of the meals is the first consideration If I'm going to have to spend a lot of time baking and cooking I do not plan to do much but the usual dusting and straightening.

Days that are set aside for cleaning are days of simple dinners

The working out of a plan for the logical succession of tasks will mean a saving of time and strength to every housekeeper

MENU FOR TOMORROW

Breakfast—Grape fruit, griddle cakes, syrup coffee

Luncheon—Scrambled eggs with rice, brown bread and butter marmalade, tea

Dinner—Rolled flank of beef, mashed potatoes, baked squash endive with French dressing, bread and butter, grape pudding, coffee

MY OWN RECIPES

Endive is in the city markets throughout the year, but during January, February March and April the supply is imported Endive belongs to the chicory family and was a native of Asia but has been naturalized into the United States. It is a valuable salad plant for fall use

Scrambled eggs with rice—2 eggs, ½ cup cooked rice, ¾ cup milk, 1 teaspoon salt, ¼ teaspoon pepper 2 tablespoons butter

Mix milk and rice thoroughly Melt butter in a frying pan. Turn rice and milk into pan and when hot add eggs unbeaten Stir mixture with a fork while it is cooking Add salt and pepper Cook until of creamy consistency.

Rolled flank of beef—1 flank steak, suet, ¼ cup carrot cubes, 1 cup boiling water, 1 small onion, ¼ cup celery (diced), 1 cup soft bread, 2 teaspoons melted butter, ½ teaspoon salt, ⅛ teaspoon pepper

Trim edges of meat, sprinkle with salt and pepper, spread with stuffing Roll and tie. Arrange vegetables in a roaster and put the meat roll on them Chop suet and put on top meat. Pour the boiling water in the pan, cover and put in a hot oven. Roast covered for 20 minutes, then uncover and cook 30 minutes longer Make a gravy from drippings in the pan Make the stuffing of the bread, melted butter and salt, and pepper and a little water if necessary. Mix thoroughly

Grape pudding—2 cups grape juice 1-3 cup cornstarch. 2 teaspoons butter, 2 eggs, ¼ cup sugar, 2 cups milk, ½ teaspoon salt, 1 tablespoon flour, ½ teaspoon vanilla

If the grape juice is unsweetened add ½ cup of sugar Dilute cornstarch with enough cold grape juice to pour easily Heat grape juice and when boiling stir in cornstarch and butter and a few grains of salt. Cook stirring constantly, until the mixture is transparent Separate whites and yolks of eggs and beat whites till stiff and dry Fold into the grape juice mixture Pour into individual molds and chill Serve with custard sauce

Custard sauce—Mix egg yolks, sugar and salt Scald milk and slowly add to egg mixture Return to double-boiler and cook, stirring constantly, until it coats the spoon When cool add vanilla

A FEATHER OF GREEN MEANS DISTINCTION

BY BETTY BROWN.

The first of the season suits far outstripped winter coats in popularity That made an extra large demand for small tailored hats Now with coats in the supremacy, and elaborate or artfully simple gowns beneath them the big hat is in high favor

The hat above is of black hatter's silk, the width of its brim modified by the sweeping lines away from the face Claim to distinction, unrivalled lies in the green ostrich feather which trims the hat in a long line from front to back.

LIBERTY ARCH IS BEING REMOVED

Sullivan, Nov. 15—The work of tearing down the large arch at the Northwest corner of the square, which was built last June for the celebration on the 4th of July for the returned soldiers, sailors and marines, was started Thursday The arch was built at a cost of over $600 Twenty-five men paid in five dollars each and then drew to see who would get the arch Dr A. D. Miller held the right number and is having the arch torn down

PUBLIC IMPROVEMENTS

A. A. Brown of Lovington was in this City Friday afternoon and filed five assessment rolls for special assessments with the county clerk. Judge Oscar F Cochran of the county court set December 22nd as the day for the hearing. One of the assessment rolls is for a pavement on Church street in Lovington and the other four are for water mains on different streets in Lovington. If the board of local improvements is able to get these assessment rolls passed on favorably it will make at least five or six different special taxes to be paid by the people of that city next year, besides improvements being made on the township high school and the graded school, and the building of a new Methodist church The people of Lovington seem to be getting their full share of taxes of all kinds

SUGAR PROBLEM STILL UNSOLVED

Wholesalers Say They Are Losing Money.

SUSPECT HOARDING

Price May Go Higher on Jan. 1.

'Nobody knows anything about how the sugar problem will be solved or how it can be solved," said a wholesale grocer of Decatur when asked Friday what the sugar situation now really is. "All that we do know is that we are out of sugar and that so little can be obtained that it is an aggravation and keeps us doing what sugar business we do have at an actual loss '

The sudden announcement in Chicago Friday that the "lid was off" on sugar prices had no effect in Decatur because of the fact that there is no sugar here anyway.

NO EXPLANATION.

The wholesalers say that the situation is so involved that an intelligent statement of what the trouble is seems to be impossible. The jobber knows not what his sugar may cost him. He only knows that his profit is limited to three quarters of a cent a pound and the retailer is limited to one and a half cents a pound.

"And when we get sugar in such small lots that we must peddle it out to our trade in fifty and 100 pound lots we lose money on the basis at which we are permitted to handle it."

DRAYAGE EATS PROFITS

"Why our drayage bill actually eats up all the profit we might make. When a firm makes a hundred trips to deliver a hundred bags of sugar the profit of three quarters of a cent a pound is all consumed in the delivery cost alone.

"We do not know what the trouble is but it seems to some of us that there is somewhere being hoarded a big supply of sugar against the day when the sugar board will go out of existance and the refiner can ask his own price.

CAN NOT GET IT.

"The New Orleans refiners can get seventeen cents a pound for their sugar but price does not interest us so much as the fact that we cannot get sugar at all We have no idea what the sugar price will be when the control goes off Jan. 1. It may be twenty cents twenty-five cents possibly thirty cents a pound

"What Decatur jobbers want is sugar. We want it at as low price as we can secure it but the demand is for sugar regardless of price."

BRAKEMAN ROBBED

Wednesday evening a Big Four railroad brakeman, who did not desire to have his name published, while the train was between Ohlman and Rosemond was suddenly held up by some party who was secretly riding the train.

The first move was thrusting a revolver against the brakeman's body and a demand for his revolver. Being assured he had none, the hold-up searched his overall pockets securing several dollars in change and before a thorough search could be made the brakeman jumped from the moving train which had slowed down but received no injuries.

Managing to catch the caboose, he told the other train men and a search of the cars was made, but the robber evidently had also jumped from the train and disappeared in the darkness as the time was near seven o'clock

The brakeman could not give a very accurate description of the robber more than that he spoke like a foreigner.

COMPENSATION BOARD

The State Compensation Board was in session Friday in the city hall, Arbitrator Wirk of East St. Louis presiding

A number of cases were heard and an unusually large number of claimants and witness were on hand. The cases usually handled here are from mine injuries, but Friday a case of Mrs. McDaniels against the C. & E. I. railroad who alleges the injury of her husband, while in the employ of that company and that the injury finally caused death and for which she is asking compensaton under the Industrial Compensation laws. The railway company claimed that no injury was sustained but that a stroke of apoplexy, incapacitated the man. This case varied the routine of the usual cases

LLOYD SCRUGGS, 6, INJURED BY TRUCK

Has Several Ribs Broken and Severe Bruises.

Lloyd Scruggs, six year old son of Mr. and Mrs. Guy Scruggs, 1084 West Eldorado street was seriously injured at the intersection of Monroe and Eldorado streets, Thursday evening when Roy Phillips milk truck struck him, knocked him down and ran over him.

The boy was on his way home from school about 4 o'clock and was crossing the Monroe street intersection when Phillips came from the west on Eldorado and turned south into Monroe. Several children were crossing the intersection at the time but all escaped excepting the Scruggs boy, who did not see the truck in time. He was taken to his home where it was found that he had several broken ribs and many other injuries, probably some internal injuries.

Phillips stated he was not driving fast but it was said by some that the car skidded about thirteen feet after the brakes were applied.

Dr. Oren Oneal

Eye and Ear Specialist of Chicago.

Coming Thursday and Friday, November 20th and 21st. His splendid Success With His Special Method Makes It Possible to Relieve Many Cases of Eye Diseases, Failing Sight, Deafness, Loss of Hearing, Head Noises and Catarrh: He Straightens Cross-eyes, Removes Adenoids at One Visit Without Chloroform or Ether.

Dr. Oneal, of Chicago, the well known Oculist and Aurist, will again visit Decatur on Thursday and Friday, at the Orlando hotel, Dr. Oneal has been making regular visits to Decatur for a long time. He has treated hundreds of patients here. He removes adenoids in children without the use of an anaesthetic or any danger of hemorrhage, treats all eye and ear diseases, failing sight, deafness, head noises and catarrh. Adam Thompson of 1011 South Colfax street, now about 21 years old, was cross eyed from birth. Dr. Oneal straightened his eyes several months ago, and he says: "Your method is painless and caused me no trouble whatever—the next day I was out the same as usual."

Mr. and Mrs. Doddek, 1112 Grand avenue, are happy because Dr. Oneal straightened their little girl's eyes. So are Mr. and Mrs. Bertold, 639 South Franklin street. William Borasch, 1212 North R. R. Ave. brought his daughter to Dr. Oneal to have her eyes straightened W. B. Britten of Mt. Zion praises Dr. Oneal for straightening his daughter Katherine's eyes. H. A. Goreham, Decatur was successfully treated for deafness and head noises, and John A. Jones says he was cured of deafness, head noises and partial blindness. Hundreds of other references to people here whom you can see and talk to.

Many cases of partial blindness, caused by inflammation, ulcers, scars, granulated lids, sore eyes, weak nerves and muscles of the eyes, may be successfully treated without an operation by Dr. Oneal's mild method. Disolvent Treatment. Most cases of deafness, loss of hearing and head noises are relieved by his mild method home treatment. Every case of catarrh of the nose and throat should be curable. Catarrh is a constitutional disease and must be treated through the system as well as locally. Dr. Oneal's system of treatment for catarrh is complete and may be carried out by the patients at home. No operations are necessary. Diseased conditions in the nose and throat can often be removed by treatment alone

Dr. Oneal invites everyone suffering with any eye or ear trouble to call on him at the Orlando Hotel for a free examination, and if he thinks he can help you he will give you one treatmen free of charge to show you what it is like—how it may help you. You will be under no obligation to continue the treatment nor to pay any money unless you wish to do so. Many cases obtain immediate relief with Dr. Oneal's treatment. Take the elevator or stairway to Dr. Oneal's rooms on second floor at the Orlando Hotel. Remember the date—November 20 and 21.

CHICAGO PAPERS GARBLED ADDRESS

Did Not Confine Selfs to Charles Stewart's Speech.

Charles J. Stewart, who attended the meeting of the Illinois Ice Cream Manufacturers in Chicago last week where he spoke and who was quoted by two Chicago papers takes exception to the accuracy of the statements made in both papers.

The statements as made by the city papers were more or less flippant and Mr. Stewart says that they were very misleading.

In a letter to The Review he says: "Editor of Review:

"In reference to articles published in your paper Wednesday and Thursday evenings copied from different Chicago papers about my paper before the Illinois Ass'n. of Ice Cream Manufacturers, I wish to say that they are badly garbled and misleading, and I think I am entitled to deny many of the statements contained therein, and not let them pass as the truth, thereby encouraging misrepresentation from yellow newspapers.

"Our meetings held annually are always open to the public, and are for the benefit and the betterment of the ice cream and dairy business.

"I did not allude to higher prices or even mention prices, and I also refused to be questioned by the reporter of the Chicago American, as I knew that anything I might say would not be used as given, but played in their usual sensational manner.

"The story about the Chinese beverage 'lamb-wine' was false in every particular, and was not mentioned at all, but was purely the product of his own disordered brain.

"My paper, 'Will Prohibition Help' was not sensational at all and dealt mostly with hard business facts and statistics on what it has already done for our business and Decatur's business generally, since 1914.

"CHAS. J. STEWART."

BOY SCOUT NEWS

CHICAGO LEADER TO INSTRUCT HERE

Scoutmasters' Course to Open Monday, Nov. 17.

Assistant scout executive of Chicago, Stuart Walsh, has been secured as one of the outside men who will be here for one of the lessons in scoutmasters training, which is to be taken by thirty or more men of Decatur. The training course for scoutmasters begins next Monday evening, Nov. 17, in the First Presbyterian church at 7:45 o'clock.

While in Chicago the first of the week, attending the district conference of scout workers, L. F. Kinister, local scout executive secured the services of Mr. Walsh. At this conference, the states of Wisconsin, Michigan, Illinois and Indiana were represented. The workers planned activities for the winter and spring.

PLAN INTER-TROOP SCOUT CONTESTS

Eleven scoutmasters met in the Y. M. C. A. Thursday evening and decided that efforts would be made to work up inter-troop contests of scout activities and that less time would be given to individual troop athletics. These contests will be similar to those held last summer, but they will be held indoors this witner.

The scoutmasters also discussed the problems of changing activities for the scouts as they become older.

Attention, Mothers! Scout Meetings End at Nine

For the benefit of the mothers of scouts, who are anxious about their boys when they go to troop meetings, and furthermore for the caution of the boys themselves, announcement is made by L. F. Kinister, scout executive, that all troop meetings are due to end at nine o'clock unless there is something special, and in that case the event will be announced before the meeting.

Scoutmasters are urged to see that meetings adjourn promptly, and if Willie doesn't get home as soon as he should after the meeting, parents should demand an explanation.

CHANGE MEETING PLACE OF PATROLS

Those scouts who are taking the patrol leaders' training course, will meet at 7:15 Monday evening in the First Presbyterian church instead of in the First Methodist church as heretofore. Scouts are asked to keep this change of meeting places in mind.

TROOP FOUR

The football eleven of troop 4 covered itself with glory by holding the troop 8 team to a tie Monday afternoon. After a hard game with troop 8, the troop 4 team played troop 7 losing by a score of 6-7. The score of the game with troop 8 was 13-13. Troop 4 played troop 7 and lost with a score of 6-7. The troop is still ready to meet all scout troops and whether they get a place in the football league or not they will challenge now the winners of the league pennant.

The Wolves again took the troop flag. The race between the Wolves and Panthers has been very keen both in the flag race and efficiency contest which end Nov. 25. According to the partial reports of the patrol leaders since Nov. 11, the patrol standings are as follows: Beavers, 600; Flying Eagles, 595; Panthers, 850 and Wolves, 943.

There were five applications for membership at the meeting Tuesday night and one candidate took the scout oath.

The troop has invited the troop committee to visit them and is planning a special program for the benefit of the committee.

Harry Butts was elected vice-president of the troop to fill the unexpired term of George Reece, who resigned from office.

The key words for the next meeting are Thrift and Bravery, sections 9 and 10 of the scout law.

Troop 4 is an open door troop and all boys interested in scout craft are cordially invited to attend the meetings. Visiting or out of town scouts are especially welcome.

TROOP ONE

Fifteen scouts of troop 1 of the Grace Methodist met at the church Friday evening. A. E. Pettitt, assistant Scoutmaster, was in charge of the meeting. Patrol leader Cecil Rau and Scout Waldo Garver presented a map of Fairview park for their first class scout test in map making.

THE SCOUT

"It's good to 'tend meetings, have fun with the boys;
It's alright to holler and make a big noise;
It's great to run races and win medals, too;
Its dandy and jolly to do what Scouts do;
To hold down an office, be ranked as a man;
And play the important in organized plan;
The Scouts are the fellows that give of the best,
In work time, in play time, they stand every test.

The next meeting of the troop will be held in the cabin at Fairview park. The scouts will meet at the church at 7:30 and will hike to the park to spend the night at the cabin. They will have a short business meeting and will play games and tell stories around the open fire.

TROOP TEN.

Troop 10 of the First Baptist church is ordered to report at the First Baptist church Sunday morning at 9:30 in full uniform.

Troop 10 had its scout room nearly filled at the meeting last Monday evening. In addition to their own members the whole of troop 17 was there as guests. Four new men were taken into the troop at this meeting

Troop 10 has not been entirely defeated even though they have not made as good a showing as they should have. They have an excellent team and after they have played more they will be in better shape.

Troop 10 was given the territory on Water street south of William street to the court house on both sides of the street. Over this territory the scouts of troop 10 will distribute the service reports to the different business houses and offices The territory was divided into six different parts. Three scouts were given the Citizens Title and Trust building. Three were given the Millikin bank building and three were given the Powers building. All the rest of the block from William street south to Prairie street, was given to three other scouts and the other two blocks were done the same way.

HURST BUYS TWO TUSCOLA GARAGES

Tuscola, Nov. 15.—A deal was closed Friday by which A. C. Hurst becomes the owner of the ground and buildings owned by R. E. Milligan and occupied by him as a livery and garage. The consideration was $16,500.

The building is a two story brick, 100 foot frontage on North Main street and 100 feet back to the alley. Mr. Milligan has used it as a livery barn for nearly fourteen years. During the last two years he has also had a garage and handled the Velie car.

Mr. Hurst also bought the building and lot on Sale street occupied by the Ford garage, from T. N. Smith, for $11,000. This building has a thirty-foot frontage. Mr. Hurst will continue to handle the Velie car at the Milligan stand and later may remodel the building, making two places of business.

The Ford people will move as soon as they can find a suitable location and Mr. Hurst will remodel this building for some other business.

CAME TO FARM.

About a year ago Mr. Hurst came to Douglas county from the west to become a farmer. He bought three different farms but before he could get started farming some one came along and offered him a price that looked good to him. On one farm he made $11,000. Then he gave up his farming plans.

PERSONALS.

Miss Mame Powers returned to Ashkum, Ill., Friday after a visit with her parents, Mr. and Mrs. Nick Powers.

Miss Edith Neidig, superintendent of the Jarman memorial hospital left Saturday on a visit to Bourbon, Ind.

Miss Eunice Ankrum returned to Westvill Friday after a visit in Tuscola.

Whit Collins and wife visited in Garrett Friday.

Mrs. Sadie Ramsey went to Springfield Friday.

Mrs. A. W. Bragg and Mrs. Tom Shaw were Decatur visitors Friday.

Mrs. L. O. Hackett, Mrs. W. W. Reeves and Mrs. P. M. Moore went to Champaign Friday.

WHAT OTHER BOY SCOUTS ARE DOING

Peoria Boy Scouts are being taught how to make bird houses. Talks on birds and bird-house building are being given by a bird man, and the boys are taking much interest in the new project.

Newsboys of Springfield are to be organized into scout troops soon. The Rotary club troop committee will foster one of the troops and provide leadership. Sixty-four newsboys will become members of the two new troops.

Americanization is attained for the younger ones in our foreign population by a short-cut through the program of Scouting. In Lowell, Mass., a troop of scouts has been formed of Greek boys, and a committee of Portuguese is also organizing a troop.

With the Government restrictions now taken off amateur radio plants, thousands of Boy Scouts will again begin training. Hundreds of scouts filled important places in the Government wireless service in the war, following the scout motto of "Be Prepared."

The Hudson Valley Federated Chambers of Commerce has approved the Boy Scout Movement and pledged its aid to making it a success in all the cities along the river.

The central fire department station in Miami, Fla., is going to "daddy" Troop No. 4 of Boy Scouts. On the troop committee are the captain, a fireman, an inspector and the electrican, and the phone operator is the scoutmaster.

A campaign for $38,000 in Waterbury, Conn., to provide funds for the local boy scout council for three years, including $10,000 for camp development, closed on time with $41,000

John H. Clifford, "Fighting Doc" Clifford, of the Fifth Marines, is in Kingsport, Tennessee, and writes to National Boy Scout Headquarters in New York City that he has established the first of a number of Boy Scout troops there. He was a Scoutmaster of Tucson, Arizona, before going over on the other side, and his son has been a member of troop No. 51 of Paterson, N. J.

Scout Troop No. I of Wakefield, Vt., took a hike from Lake Dunmar to Ethan Allen Cave by compass through the mountains.

LOCAL MINERS NOT TO RESUME WORK

Apparently Awaiting Result of Washington Conference

As stated in the Review Friday evening local union No. 2622, United Ming Workers of America, did nothing at the meeting that afternoon except to receive the official communication from the officials relating to the withdrawal of the strike order.

No indication was given as to when the men would resume mining here and it was not expected that any different action would be taken at the meeting of local No 781 called for three o'clock this afternoon.

A general reticence governs the miners, there being little discussion over the situation but rather a disposition to await the results of the conference now being held at Washington.

GALA OPENING FOR BIG HOME COMING

Nine Hundred at Millikin Reception.

TWO ONE ACT PLAYS

Paper Ribbons Fly About Auditorium.

"Greatest Friday night, day before the game, homecoming evening we have ever had" was the universal verdict of the more than 900 students, citizens of Decatur, members of the faculty and scores of returned alumni of Millikin university, after the excellent program which was given at the auditorium following the reception in the corridors Friday evening.

A feature of the evening was the serving of sandwiches by girls dressed in Dolly Varden frocks, between the two one act plays to the more than 900 persons in the auditorium. Each sandwich was wrapped in white paper banded with Millikin blue and with each sandwich was a roll of fancy colored serpentine paper which was soon flying about the auditorium from balcony, boxes and main floor until the room had a rainbow effect.

ALL JOIN IN FUN

President emeritus A. R. Taylor, acting president J. C. Hessler and Mrs. Hessler, who occupied one of the boxes, were as freely bombarded as were others and they took up the spirit of the fun, Dr. Taylor slyly dropping a huge bundle of the tangled colored strips which he had quietly gathered on to the head of Mrs. Hessler while the students and visitors cheered vigorously.

The program was an interesting one consisting of three esthetic dances put on by the little daughter of Edward Powers, Doris Aileen Whitmer and Miss Virginia Baldwin, the latter also taking part in the fanciful Pierrot fantasy in which Miss Helen Gorham and Don Smith took speaking parts.

Following this first play, after the serving of the sandwiches was the one act little play, "The Lost Silk Hat," in which Robert Barracks took the leading part.

Between the two plays Freeman Wilmeth sang while the girls who later distributed the sandwiches danced.

Preceding the plays the corridors, particularly about the main entrance, were packed solid with returned alumni greeting each other and members of the faculty, students and many Decatur friends of the school.

ORCHESTRA FOUNDER DIES

Boston, Nov. 15.—The death of Major Henry L. Higginson, banker and founder of the Boston Symphony orchestra, was announced today. He died at the Massachusetts General hospital last night, after an operation. Had he lived until next Tuesday he would have been 85 years old.

Mr. Higginson established the Boston Symphony Orchestra in 1881.

S. O. S.

If Constipated, Bilious or Headachy, take "Cascarets"

Sick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep.

Read and Fear Not

The cold nights are here. A fire—a chair that rests—the favorite book and what else do you need for complete relaxation after a busy day?

Nothing, That's Plenty—

if your eyes are comfortable, but if they are not and your glasses do not fit your eyes, all the luxuries of a home will not make you comfortable.

WINDSOR SPECTACLES

—with lenses properly fitted to your eyes will afford you the comfort desired and if you can not read and fear you are straining your eyes, you had better consult one competent to examine them and get Glasses that are comfortable.

PILES

DR. MARKS
Regular Graduated, Licensed and Registered Physician.

I WILL GUARANTEE IN WRITING TO TREAT ANY CASE OF PILES FREE OF CHARGE, IF THE DISEASE EVER RETURNS AFTER MY TREATMENTS HAVE BEEN COMPLETED.

If your doctor has told you that Rectal Diseases or Piles cannot be cured without a knife, he is not scientifically acquainted with the subject.

If a doctor has examined you for Rectal trouble or Piles and nearly killed you, he knows nothing about making an examination of these parts.

If your doctor has treated you for Rectal trouble or Piles and failed to effect a cure, it is no sign that your case is incurable, but is probable conclusive evidence that he knows nothing about the diseases of the Rectum.

A great eye specialist was once complimented by a patient for his skill in removing a Cataract; his answer was: "Oh, that is nothing. I never make a failure nowadays, but I spoiled a bushel of eyes learning how."

MORAL: IF YOU ARE AFFLICTED WITH PILES, FISTULA OR ANY RECTAL TROUBLE, GO TO A RECTAL SPECIALIST AND BE BENEFITED. DON'T ALLOW SOME ONE TO PRACTICE ON YOU.

I do not use the knife, no injections, no burning, no chloroform. You do not lose a single day by the use of my methods. My method is safe.

You can consult me and be examined FREE OF CHARGE. If you are tired of using salves, ointments, suppositories, etc., come and talk it over with me. It matters not where you live. I can probably furnish you with one or more names of patients who have completed my treatment, talk it over with them. That is better evidence than letters or testimonials. Come to my office and talk it over with patients I am now treating and see what they think of it.

Take my advice, it makes no difference if you are man or woman, if you are suffering with Piles or any other disease of the Rectum, do not suffer another day. Do not fear to come and be examined. I promise that I will not hurt or harm you. Do not delay, neglecting these troubles is dangerous. If you are a woman, let me give you the name of some woman I have treated, then you will have confidence; if you are a man, let me give you the names of business men right here in town who have taken my treatment.

About Town

"WHY, hello Charlie," said Bert Muthersbaugh to a young colored man who once had a position as shoe shiner in a down town barber shop, as they met on a street recently. "What are you doing now?"

"Working out at Staley's, Mr Bert," replied the colored boy.

"Pays better than shining shoes in a barber shop, doesn't it?" said Mr. Muthersbaugh.

"Well," replied the former boot black, "I don't know of any job I can get down around town where I can pull down over $100 every two weeks. do you?"

The young man has a night job in the boiler room and is well satisfied with his position and particularly with his pay.

MARJORY GATESON, who played one of the leading roles in "Little Simplicity" at the Lincoln Square theater last week, looked forward to the company's appearance the following night in Champaign with considerable interest.

She was playing with the company which was showing in the theater there two years ago when the university students wrecked the theater because of some fancied grievance against the manager.

Miss Gateson stayed in the basement of the theater three hours waiting for the student mob to get out of the building.

Just Folks by Edgar A. Guest

GOD'S INSTRUMENT.

He who has smoothed another's way
And left a long-remembered day
With one whose heart was sick in
pain,
Need never say he's lived in vain.
He who has done one kindly deed
And served another's hour of need.
Has truly justified his birth
And made this world a richer earth

He who has borne his share of grief
And never faltered in belief,
But through it all has kept his trust
That God knows best and God is just.
May die content to such a plan;
For he has truly played the man.
And rich or poor, that man shall be
Fit spirit for eternity.

He who has given as he could,
And spent his strength for what is
good—
Has helped the weary and the weak,
No other goal from life may seek.
He who has tried to play the friend
Shall come to glory at life's end
And find to his serene content
That he has been God's instrument.

NO DIVORCE CASES IN TAYLORVILLE

Taylorville, Nov. 15.—With the last day of filing for the November term of court a large number of cases were docketed for the coming term. Strange to say there was not a divorce case brought in the closing hours. This is something unprecedented. The number of suits will be about the average for the November term. A greater part of them are for the division of estates.

Ernest L. Minnis is asking his step father and his mother, Mr. and Mrs. L. S. Mathews for a division of the property left by his father Eddie E. Minnis at his death. He also asks for an accounting of the rents of the land which his mother and her husband have been occupying.

ASKS LAND DIVISION

Division of the lands left by William H. Ensminger is asked in a bill filed by Verla Blair against John D. Hunter.

James M. Martin, filed suit against Sydney and Rex Clark to collect $1,000 which they allege as damages done by the Clark automobile in a collision.

Two foreclosure suits were brought by the Eaton State bank of Owaneco. One is against Roy C. and Josie S. Speagle and the other is against Matthew W. and Emma Todd.

The Anheuser Bush Brewing company is made defendant in an action brought by John R. McLean. The amount of the damage claimed is $500.

LOST CAR OF GRAPES

The loss of a car of grapes in September, 1918 is the basis of a suit brought by Marco Della Ginstina of Kincaid against the Chicago and Illinois Midland road. The damage is placed at $1,000.

G. W. Lemmon, administrator of the esate of Leroy Martin filed suit against Roberto or R. Armstrong to collect overdue notes aggregating $1,000.

MONEY FOR CHURCH

The will of John Dappert, pioneer resident of Christian county, was filed for probate yesterday and the hearing was set for Dec. 9. They will disposes of 400 acres of land and some city property. The greater part of the land lies in the Kansas wheat belt there being 320 acres in the one tract. The personal estate is not large. The will leaves $125 per annum of the income from the Christian county land to the Mound chapel for twenty years or so long as the congregation is intact.

This is to be divided so that $100 is for minister hire and the remainder for the upkeep of the cemetery adjoining. The remainder of the income during this period is divided equally between the children. Each grand child is to be given $200 from the esate which is to be converted into cash and the balance is to be divided equally between each of the children.

ANNOUNCES ENGAGEMENT

Announcement of the engagement of Miss Ruth Sharp to Carol Drennan was made at a party given by Miss Marie Baughman in Edinburg Thursday afternoon. Miss Sharp is the daughter of Mr. and Mrs. Ira Sharp of Sharpsburg and is a familiar figure in society of Taylorville and surrounding cities. The bridegroom is the son of Mr. and Mrs. George Drennan, prominent farmers of Buckhart township.

SALLENGER BULLARD

The marriage of Miss Nelson Bee Sallenger and Charles Bullard, both of Morrisonville was announced yesterday on their return from a honeymoon trip. The ceremony took place in Indianapolis, Indiana on Armistice day.

The congregation of the Macon Presbyterian church, will hear Rev. Alexander L. Miyat of Chicago in their church next Sunday, Rev. Miyat being a candidate for that pastorate. He will speak at both morning and evening services. The church has been without a pastor since November 1 when Rev. N. C. Griffin, the pastor, moved to Fancy Prairie to take charge of a congregation there.

on the FARM

SNAPPY WEATHER WHETS APPETITE

Corn Shuckers Play Havoc With Farm Viands.

Corn shuckers who work out in the crisp, cool days come to the farm house in the evening as well as at noon with an appetite which plays havoc with the substantial meals furnished at every farm home.

"KILLS" EVERY TWO WEEKS.

One man who has five or more corn shuckers at work on his farm, near Macon, butchers every two weeks so as to have a supply of meat. He kills a young beef or a hog and in this way manages to keep the hungry corn gatherers in going condition During the recent long spell of wet weather he had the shuckers at his house just the same as if they were gathering the corn and he could not see but that they devastated the commissary department quite as much as when they were shucking.

Now tht colder weather seems likely to stay there will be an increase in butchering and city folk with kindly disposed relatives or friends in the country are already beginning to taste that country sausage and hot pancakes which follow the seasonable killing of either cattle or hogs

MORE BUTCHERING LIKELY.

Owing to the high prices of meat in the city markets it is expected that there will be more butchering in the country than usual this year. More of the hog raisers are planning to put down their own meat, hams and bacon, than for some time.

It is expected that country sausage, spare ribs, head cheese and liverwurst will soon be on the market in considerable quantities. Prices will probably be about the same as last year.

BEEF RINGS POPULAR.

"Beef rings" will probably not get into operation until December. These are organizations of groups of farmers who kill a beef each week or fortnight and divide the meat among the families in the ring. In this way the producers get their meat at actual cost and it may be certain that they do not pick out the poorer qualities of cattle to kill, either.

These organizations, however, do not start until winter has really begun.

MUCH DAMAGE BY HESSIAN FLY

Shelbyville, Nov. 15.—Shelby county farmers are somewhat disheartened over the damage done by the Hessian fly. From twenty-five to fifty per cent of the wheat fields have become infested. County Farm Adviser C. H. Belting advised the farmers in this vicinity against early planting, that is, before Oct. 1. Farmers who heeded the advice of Farm Advisor Belting in regard to the right time for sowing wheat have practically no fly infestation. Most of the fields of wheat which were sown in September have a very heavy infestation, in some cases running as high as one hundred per cent. However, it is thought, that the lated sowing may become infested, as there are two crops of fly, one which attacks in the spring, and the other in the fall. It is probable that the crops sowed after Oct. 1, may be attacked in the spring

To find these larvae, pull up the wheat plants, strip down the blades to the crown of the roots. The damage that will be done means a much reduced yield and in many cases a total failure. There is nothing that can be done now to combat this pest Many acres will be plowed up next spring, and put to some other crop

The fly situation is no better in other counties of Illinois.

PAYS TO KEEP FEW GOOD COWS

Shelbyville, Nov. 15.—Shelby county farmers are now seeing the advantage of keeping a few milk cows on their farms. Interest in dairying has been steadily growing for the past ten years. In every town in the county there are one or more cream buying stations. In Shelbyville there are four places where cream is regularly bought and business in this line solicited. November is a poor cream producing month, but it is estimated that about $1,500 worth a week is now bought here. During June and July more than $2,000 is paid weekly for cream in Shelbyville. Last month the Spring Brook creamery of this city sold nearly $4,000 worth of butter. All the cream that went into this butter was bought from farmers in the immediate vicinity of Shelbyville. A few farmers still ship their own cream, but considering the extra bother it is doubtful whether they realize any more out of their cream than the ones who sell their product directly to the home buyers With the high price of cream, a few good cows bring in a very neat sum of money each week to those people who can find time to give their cows proper attention.

LESS MAN POWER WASTE IN COUNTRY

Illinois State Journal: Do those who find so much fault with the farmer's shortcomings ever compare his achievements with those of the city dwellers? Do they ever consider the relative rural and city waste of resources and man-power?

There isn't a rural community in the country which has in it so much unproductive property as is to be found in the average city, value considered. No rural community possesses, man for man, a greater proportion of unproductive citizens than the ordinary city. With all that has been said about misdirected energy on the farms, it is a small matter when compared with what the cities lose in ineffective effort.

Of the thousands of idle men in the country today, practically all of them are in the cities. The farmer hasn't yet learned all there is to be learned regarding the possibilities of his business plant, but he knows enough to keep it in operation while there is a demand for its product. The waste of time and energy due to strikes and lockouts is unknown in the country even though an occasional neglected plow or harrow rust in a fence corner.

The farmer is frequently careless in a business way, but not so careless as the city dwellers who build structures not fitted to their business, who invest in poor equipment and who assume hazards and take all sorts of unneccessary chances. A comparison between city and rural failures will dissipate the notion that the weight of either industrial or business sagacity lies with city dwellers.

ESTABLISHED SALES BRING BIG PRICES

Peoria Breeders Command Big Prices for Hogs.

Members of the Macon County Live Stock Breeders association who think that the prices which they received for the pure bred hogs which were sold at the public sales held by the association were low should remember that these sales were the first that had been held on an ambitious scale in this county.

The fact that hogs for butchering had dropped in price was also given as one reason for the prices realized, prices which while low for a pure-bred sale were still very much higher than the same animals would have brought as stockyards merchandise.

SOME PEORIA PRICES

That the low market price had little to do with the prices realized at the sale is proven by the prices which were secured in sales held in Peoria county last week.

At one place the average price secured for Poland China hogs was $374.83 for the thirty-seven head offered. The sale brought in a total of $12,870. Last fall this man, Bert Potter, made a mark in hog sales in that county by selling a litter of pigs from one sow for $5,910. In the sale held last Monday Mr. Potter secured $3,000 for a yearling boar.

$1450 FOR DUROC

At another sale of Durocs recently held in the same county one hog brought $1,450. Another sold for $550 another $185. The lowest priced animal brought $130, the eighteen head bringing $3727 or an average of $207.

If the Macon county association will continue to uphold quality and will build up a reputation for having good stock at these annual combination sales there is no reason why Macon county hog growers should not get as high prices as any offered in any of the hog producing states.

Buyers will come to Macon county from Iowa and Indiana quite as readily as they will go to Peoria county.

STRAW BLANKETS

Wheat growers have found that it pays in most cases to protect their winter wheat by applying straw. Covering the field with a thin layer of straw has been the means of preventing the wheat plants from being killed by heavy freezes. This was clearly demonstrated in many wheat fields last winter. Farmers did a little experimenting in their own fields. They applied straw in one part of the field and allowed other portions to go unprotected. The result was that the area covered with straw came through the winter in good shape, while many of the plants in the remaining area were winter killed.

Experiment stations have found an actual increase of several bushels in the yield of wheat in cases in which straw was used during unfavorable winters. The value of straw in protecting wheat depends on the amount the uniformity of distribution, and the time it is applied. Two tons to the acre is sufficient and even less be used to good advantage. It may spread over the field with a straw spreader or by hand, but the covering must be uniform. Avoid throwing it in bunches if the work is done by hand. The safest plan is to wait until the ground is frozen before applying it.

If the straw is applied too early moisture is held near the surface of the ground and there is a tendency for a shallow growth of roots to develop. If the work is delayed until after the plants have made their full growth and developed a deep root system, this trouble will be avoided.

Oat or wheat straw may be used. The latter is more commonly used because it has a lower feeding value than oat straw. Many wheat fields were affected with wheat scab last season and straw from such fields should not be used. However, there is no danger in using oat straw for a top dressing. Straw not needed for feeding or bedding can be porfitably used as a winter covering for wheat.—Chicago Tribune.

PRAY AS CHRISTIAN, ACT LIKE DEVIL

Subject to Be Discussed by Rev. C. E. Jenney Sunday Evening.

"The Man Who Prays like a Christian and Acts Like the Devil," will be the theme of Rev. C. E. Jenney's sermon at the First Presbyterian church Sunday night.

Mr. Jenney will apply it to the development of the character of young people and of Christianity in a community and church.

SELL DAIRY COWS AT PANA

Big Sale of Thoroughbreds on Nov. 18.

Pana, Ill., November 15 — The sale of the large shipment of Jersey cattle which were shipped in here recently, through the efforts of the Pana National bank, has been set for Tuesday, Nov. 18, and will be held at the farm of Claude Kirkpatrick, two miles east of this city.

This stock was purchased by Mr. Kirkpatrick in Tennessee and Kentucky and the cows are thoroughbreds.

NOT TO PROFIT.

The object of this sale is strictly to improve the breed of dairy cattle in this vicinity and not for profit as every animal will be disposed of at absolutely the price paid plus the actual expenses incurred in the purchase shipment and feed consumed from arrival until sale.

The dairy interests here are already extensive. The Sugar Creek Creamery located here is turning out daily immense quantities of the highest grade butter.

The National Bank and others interested are convinced that improving the breed of cattle is a sure may to improve the business interest of the community.

There will be offered forty-five head of pure bred registered cows and heifers; sixty head of high grade Jersey cows and heifers and ten head of registered bulls. There are a number of fresh cows in the lot, the balance to freshen in the spring.

CREDIT GIVEN.

The drawing for the choice of the stock will begin at ten oclock Tuesday morning. If the weather is at all favorable a very large crowd is expected to take advantage of this opportunity of starting to improve their dairy stock.

LOW TEMPERATURE MATURES CORN

The sixteen degrees temperature this week put the corn in the very best condition for shucking and cribbing and with a continuance of fair weather shucking will go along much more rapidly than it has at any time since the first frost.

Roads are settling and fields are getting into excellent condition with the result that the man who can "keep three ears in the air all the time" is trying for records in bushels now on the farms of Central Illinois. Corn yields are disappointing in bushels but the fine quality of the grain is found to be very general. The moisture content is probably lower than it has been for years at this time in the season and the corn is going into the cribs in excellent keeping condition.

SHUCK 100 BUSHELS OF CORN PER DAY

J. B. Greenwood Hangs Up Early Record.

J. B. Greenwood, of 2224 Graceland avenue, returned Friday from the Fairview farm in Piatt county, where he husked thirty acres of corn, averaging sixty bushels per acre, making 1,800 bushels.

He made an average of 100 bushels every day through the entire job.

The field was treated last year to one ton of phosphate per acre and made a yield of ten to twenty bushels per acre more than adjoining fields where no phosphate was used. The heavy rains and strong winds caused the corn to fall flat.

Seven cents per bushel with board, of $7 a day was the price paid for the work. There was no dump and the corn had to be scooped into the cribs.

DISCHARGE MEN IN ASSAULT CASE

Sandidge and Baker Freed of Charges.

Monticello Nov 15—The preliminary hearing of Haynes Sandidge on the charge of assault upon Aulta Peck came to a sudden end late Friday afternoon when the case was dismissed by States Attorney C W Firke Home R Baker, a short time later was also released The prosecution had reached an impasse where further progress seemed impossible in the Sandidge hearing To the audience in the crowded court room the sudden ending was wholly unexpected and when its significance was understood the court room rang with applause for a minute

The prosecution had spent the day in building up the charge of assault with evidence which only incidentally connected Haynes Sandidge with the case Miss Peck was the last witness to establish the assault

REPEAT TESTIMONY

The evidence heard was in the main a repetition of that of last Saturday The presence of Haynes Sandidge at the Pratt Smith home and later at the Peck home was testified to by several witnesses His interview with Aulta Peck in her home when every body else was excluded from the room was brought out Burt Peck testified that Sandidge exhibited a 'black jack' a sort of slungshot in the yard at Smiths following the assault The witness was shown a slungshot taken from Sandidge since the assault which the witness testified was not the one exhibited that night

Dr Sersemann testified to the condition of the girl after the assault There was only one mark of violence to be found an abrasion on the left side of the forehead which appeared to have been made by a scraping contact with a rough object There was no evidence whatever of an attempt to commit criminal assault

FOOTPRINTS

Pratt Smith testified to foot prints in the corn patch which led to the place where the girl was found Two pairs of shoes belonging to the defendant were shown which the witness said could not possibly have made the tracks

The hearing was before Justice W [illegible] Lord in the Circuit court room

The hearing of Homer Baker on the same charge was begun immediately after the ending of the Sandidge hearing After his arrest it became generally known that he had an iron clad alibi and the hearing was therefore merely a formal presentation of this alibi and his discharge A Monticello man left Monticello with him on the day of the assault and rode with him to Stewardson Several Stewardson witnesses testified that he was in that town at the time of the assault

This doubtless ends a case which has stirred Monticello more deeply than any thing of recent years There still remains the possibility that the matter may be brought before the grand jury and an indictment found The grand jury does not meet until February A great deal of bitterness has been engendered by the affair

IRISH FLAG REMOVED

Portland Ore Nov 15—A flag of the Irish republic was removed from the automobile of Eamon DeValera president of the Irish republic yesterday by request of a party of former service men headed by Ensign A T Kurtz

DeValera s car had been parked near the Liberty Temple On one side of the radiator it bore an American flag and on the other side a flag of the Irish Independence party Kurtz and 25 ex-service men, who were on duty at the Liberty Temple, asked the man in charge of the car to remove the party flag, in view of the fact that the United States Government did not recognize the 'Irish republic" The flag was removed.

Mayor George L. Baker issued a statement saying use of the flag was objectionable and would not be permitted publicly during the remainder of DeValera's stay here.

Open Letter to Pile Sufferers

The haunting fear of operations, the dread of chloroform, injections, and various other means employed in standard treatments for rectal diseases, and the uncertainty of the outcome after the expenditure of time and money, has led many a patient sufferer to endure in silence and resign himself to his fate, rather than seek relief.

We have patients coming to US from all over the country. Many people come to us who have tried all other treatments without success and are cured by our painless method.

We have been known to the professional and laboring people of Decatur for over five years. Our reputation will bear the closest scrutiny.

The method we use is the only painless, NON-SURGICAL DISSOLVANT METHOD.

You may come to us with perfect assurance that you will be treated with courtesy and consideration. We will tell you frankly what we can do for you.

We are Specialists in the treatment of all rectal diseases and confine our efforts to this one particular field.

Call at our office and let us show you how simple yet effective my method is.

Sincerely yours,

DR. A. L. DeSOUCHET
RECTAL SPECIALIST
Phone, Main 804
Suits 429, Powers Building, Decatur, Ill.

P. S.—We use no knife, chloroform, or other fear-inspiring means. Our treatmeant will not interfere with your business or social engagements.

KOONTZ GETS PAY FOR CORN

Shelbyville Nov 15—The report of the grand jury indictments as printed Friday was erroneous, in that the alleged indictments against Roy Snyder, John Schlack, J. W Johnston, Clint Foor and Endicott and Clark should have been "not true bills" as no indictments were returned against them.

GETS PAY FOR CORN

Bruce Koontz of Stewardson won in his suit against J Arthur Roley and was awarded damages to the amount of $470 40 Koontz had purchased corn from Roley and claimed that it did not weigh out the full amount which Roley stated the crib contained in his best judgment Koontz claimed the agreement was that in case the actual weight fell short he was to receive from Roley the difference between the actual and estimated weights Roley's refusal to pay the difference led to the suit

In two cases filed by Silas A Ragan against R G Compton, one for damages and the other for distress for rent the court decided the latter in favor of Compton and dismissed the former Ragan however, entered a motion to dismiss this suit before the court announced his decision

The court excused the petit jury until Monday, and took a recess until that time

MODE WOMAN DIES

The funeral of Mrs George Meister was held from the Christian church at Mode at noon Saturday conducted by the Rev C E Dunlap Burial was in Old Mode cemetery

The death of Mrs Meister suddenly at 3 o'clock Thursday morning, was due to heart trouble She had been a resident of Illinois for 25 years She was born in Ohio March [illegible] 1861 and was married to George Meister who for several years has been a justice of the peace here, on October 1[illegible] 1884 She leaves her husband three children one brother and two sisters The children are Mrs Florence Duncan Mrs Maud Meltzner both of Vila Grove and Mrs Edith Vogel of Mode The brother is Seth Larned of Alabama and the sisters are Mrs Emily Peacock of Ohio and Mrs Emma Dover of Nebraska

GUARDED GERMANS

Ray and Roy Guinnee have returned to their home in Tower Hill after a year's service in France They enlisted in the medical corps in the spring of 1918 and for a year have been connected with a German prisoners' camp in the Verdun sector

GOOD CORN YIELD

John Scroggin an Okaw township farmer, reports a yield of 656 bushels of corn on eight acres of land on his farm. This is an average of 82 bushels to the acre, which is one of the best thus far reported this season.

ONLY A MISUNDERSTANDING.

Only a little misunderstanding seems to have been responsible for the filing of the suits by N. E Kirkwood against the Commercial State bank of Windsor in which it is charged that the bank refused to honor Kirkwood's check against an account he carried with the bank

The bank claimed that the deposit was money paid for corn, and by agreement was to be divided fifty-fifty between Mr. Kirkwood and his wife. In line with this understanding the bank refused to honor Kirkwood's check for more than his half Later both Mr. and Mrs Kirkwood appeared at the bank and together withdrew the deposit Dismissal of the suit followed and Kirkwood paid the costs.

NO DISTRESS AT WINDSOR

Thus far there has been no distress at Windsor but some families who failed to lay in a supply of coal are now on the "ragged edge". Most of the churches are fairly well supplied and other public institutions have at least several weeks' supply If the weather is not too severe the schools will not be pinched for several weeks The Presbyterian church which opens only for Sunday school has sufficient coal to last through the winter The Methodist and Presbyterian churches can operate on their present supply for several weeks The Red Men and Odd Fellow lodges have short supplies The Masons post office bank and several office suites are in a steam heated building the owners of which state they have enough coal to last several weeks

TO ENFORCE QUARANTINE

Criminal carelessness on the part of at least one mother is reported from Windsor where there are several cases of scarlet fever among school children and the presence of an inspector from the state board of health has been found necessary to enforce the quarantine One boy whose throat was found to be infected frankly told the inspector that his mother had instructed him to tell the nurse or teacher, if quizzed that there was nothing the matter with his throat

At a special meeting of the city council steps were taken to more rigidly enforce the quarantine as it was reported that children sent home from school ill had been running the streets with their parents apparently unconcerned about their condition or the menace to others

CERRO GORDO

Lewis D Beery an old resident of near Lintner and this vicinity dropped dead in Cerro Gordo at noon Thursday. He had come to Cerro Gordo to purchase some of the apples which had been shipped to this place and was at the car when he died While the apples were being loaded into the wagon the team commenced to back up cramping the wagon and overturning it Mr Beery was thrown to the ground but appeared to be unhurt as he got up and laughed remarking to some of the men that "I might have got hurt" With the assistance of the other men the wagon was righted and the apples again loaded About this time a fast passenger went through and the horses became frightened Although he had no difficulty in holding them As soon as the train had passed the horses became quiet about this time Mr Beery leaned up against the wagon saying "I feel dizzy" and fell to the ground Dr Ellis was hastily called and arrived in a few moments but when he arrived He was beyond earthly help The body was removed to the McLaughlin undertaking establishment where the inquest was held by coroner Foster of Monticello at 6 20 p m and the verdict of the jury that he came to his death by paralysis of the heart Mr Beery had been a resident of this vicinity for many years and was a prominent and prosperous farmer He was about 65 years of age and leaves nine children three sons and six daughters They are Oscar Beery of La Place Lester Beery of Lintner Chester Beery of Knox Ind Mrs Earl Landis of Holyoke Colo Mrs Isaac Hoots of Decatur Mrs Arvil Landis of Lintner Mrs Noah Buckingham of Lintner and Misses Phoebe and Mabel Beery who live at home Mrs Beery died about two years ago He will probably be buried Sunday

Two Decatur People Left This Week for Nebraska, Representing the

Dual Truck-Tractor

Mr. C. A. Hein, who operated the moving picture machine at the Lincoln Square Theater and represented the Gaumont Graphic in Decatur, and Mr. O. Runke', who played in the orchestra at the Lincoln Square Theater, have cast their lot with the Dual Truck-Tractor, and gone to Nebraska in the interest of the company. It is impossible to know the Dual Truck-Tractor and not be with it. The possibilities in the manufacture and sale of this machine are so great that when the full possibilities are realized, one must be with it.

Mr. Hein, in his capacity as representative of the Gaumont Graphic moving picture concern, was on the look out for events and new inventions of world importance. He saw the Dual Truck-Tractor on the streets of Decatur, and in a measure, was able to realize its possibilities. He solicited the privilege of taking moving pictures of this machine, which was granted. He followed the machine from time to time, when it was out for plowing, for pulling the binders, for hauling the grain to the elevators, pulling the Jumbo road grader, etc. These moving pictures were sent to the Gaumont Company studios, Flushing, New York, and in Gaumont Graphic No. 72, which showed the current world events the Dual Truck-Tractor was shown, and wherever moving pictures are shown for the entertainment or education of the people, there the Dual Truck-Tractor has been shown, is being shown, or will be shown. All of this was without expense to the Dual Truck & Tractor Company.

The heavy machinery for the manufacture of Dual Truck-Tractors is now on the solid concrete foundations at the factory, and Dual Truck-Tractors are now being manufactured, and the man or woman who reads this article and wants to make an investment in an enterprise that promises tremendous earnings, should write at once before it is too late.

It is estimated that the production of one machine a day will furnish net earnings equal to six percent on the total capital stock of the company; five a day— 30 percent, ten a day—60 percent. A visit to the factory at 901 East Eldorado Street, Decatur, Illinois, will enable anyone to judge how quickly the company will reach a production of one a day, and from that on to two, to five, to ten, to twenty, and so on.

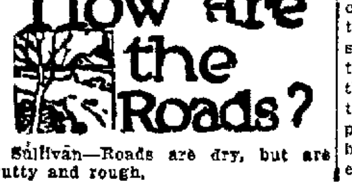
STRENGTH ONLY IN R. R. SHARES

New York, Nov 15 —Declines outnumbered gains at the irregular opening of today's stock market, over night industrial developments provoking further selling Railroad shares were the only issues to display a fair degree of strength, yesterday's movement in that quarter being moderately resumed Equipments, steels, oils and motors were again most susceptible to pressure, declining 1 to 2½ points General Motors made an early advance of almost 3 points but this was immediately followed by a reversal of nine The general reaction made further headway within the first half hour

Latest phases of the labor situation and another slump in foreign exchange contributed to the lower tendency shown by today's dull and professional stock market These conditions invited further selling for profits made on the recent rise, the buying power being very light Pressure was again most effective in speculative issues which made extreme declines of 2 to 6 points Rails gave promise of further improvement, but fell back when the demand for stocks ceased. The closing was heavy.



How are the Roads?

Sullivan—Roads are dry, but are rutty and rough.

OFFICIALS RELAX AFTER NIGHT VIGIL

Spokane, Wash, Nov. 15—Spokane officials relaxed this morning, after a night spent in a state of preparedness against a threatened "invasion" by Industrial Workers of the World from Montana and other parts of the northwest.

The American Legion late yesterday informed officials it had information that from 1,000 to 2,000 Industrial Workers were coming here The reported purpose of the I. W W. and the exact source of the information remained undisclosed Officers of the Legion maintained, however, that it was authentic.

Incoming trains were watched closely and two alleged members of the radicals were taken into custody No others were observed entering the city, however.

SPECIAL POLICEMEN.

Spokane, Wash, Nov 15 —Members of the American Legion were sworn in as special policemen last night following information received of an intended invasion of Industrial Workers of the World

Orders for the mobilization of two companies of the National Guardsmen were issued by Maj Thomas G Aston

MURDER CHARGE.

[By The Associated Press]

Centralia, Wash, Nov 15. — Arrangements were made yesterday to file murder charges against eleven men, ten of them already arrested following the attack of alleged members of the Industrial Workers of the World on the armistice day parade which resulted in the deaths of four former service men Public memorial service of the victims of the shooting were held under the auspices of the American Legion

TAKE MANY MORE I. W. W.'S

San Francisco Cal, Nov. 15 —Raids on Industrial Workers of the World and other radical organizations, begun as the result of the killing of four former service men at Centralia Wash, last Tuesday, continued yesterday and last night up and down the Pacific coast, and as a result scores of additional prisoners were in custody today

Some face charges of criminal syndicalism, some of inciting riot, and others of vagrancy

At Los Angeles a number of former service men broke into Industrial Workers of the World headquarters cut and bruised with clubs three men found there and wrecked the place before the police could respond to a riot call In San Francisco the Peoples' Institute" an I W W headquarters were raided and nine men held in default of $1,000 bond, on charges of vagrancy

Near Centralia former service men acting for county officials gathered up fifty alleged Industrial Workers mainly in logging camps

FLU CASES IN STEEL MILLS

Youngstown, Ohio, Nov 15—Spanish influenza has broken out among workmen living in steel mills here on account of the steel strike, according to announcement by Youngstown hospital officials today, who said that six cases had been taken to the hospital from the Ohio works of the Carnegie Steel company, and three from the Brier Hill Steel company. Several hundred men have been living in each plant during the eight weeks of the strike.

OATS DESCEND WITH CORN

Chicago, Nov 15—Fresh liquidation which found support poor, developed today in the corn market Breaks in foreign exchange had a decided bearish influence, and so too did larger receipts

Besides, it was expected Monday's arrivals would be liberal Opening quotations which ranged from ⅛ to 1 ¼c lower, with December $1 29¾ to 1 29½ and May $1 24 to 1 24½, were followed by a material further setback

Toward the last week-end adjustment of trades steadied the market somewhat The close however was weak 1¼@2⅛c net lower, with December $1.27⅝@1.27¾, and May $1 23⅝@1 23¾

Oats descended with corn. After opening ⅛ @ ¼c to ⅜c down, including December at 72¼, the market continued to sag.

Provisions were easier as a result of the grain weakness Big shipment of meats failed to act as a check on the decline.

In the later dealings, the market displayed but little power to rally. Virtually no business at all in pork was done

TRADE GOES AHEAD ABOUT ON LEVEL

New York, Nov. 15.—Dun's today says:

'Readjustment of an over-extended speculative position has made for more wholesome conditions in the securities markets, and the rescinding of the coal strike order has strengthened business prospects No widespread or serious interruption of manufacturing or transportation has resulted from the walkout among the miners, and the gradual resumption of operations in the bituminous fields has allayed apprehension of a general industrial setback through lack of fuel

"Yet different branches of enterprise are still greatly inconvenienced by labor troubles that limit output at a time when the fullest possible employment at mills and factories is essential, and a rise in Dun's index number of commodity prices to a level closely approximating the high record of the summer reflects the growing shortage of supplies of many necessaries

"Reports of cancellations of merchants commitments are less an indication of diminished purchasing power than of inability to have requirements satisfied and some interests with order books already congested, have withdrawn salesmen from the road and are rejecting profitable contracts from new customers

"Weekly bank clearings, $9,082,592,-977."

CORN AFFECTED BY MONEY RATES

Chicago, Nov 15. — Material setbacks in the value of corn this week have been largely brought about through tightening of money rates and by the bearish character of the government crop report Prices this morning compared with a week ago were 3 to 5⅛ cents lower Oats gained 1@1⅛ to 1½c In provisions there was a net decline varying from 37 cents to $1 15

Correct anticipations that the government crop report would show a big yield of flattering quality did a good deal to give force to the week's initial downturns in the corn market Sellers were temporarily disconcerted, however, by rough weather and by strained industrial conditions Then the calling off of the coal strike followed by a cold wave led to a renewal of selling pressure, which was afterward greatly increased through tension in regard to money, together with acute weakness of stocks, hogs and foreign exchange. Rallies that ensued were ascribed to a fresh upward movement of the New York stock market and to scarcity of rural offerings of corn, but advices that railroads were furnishing cars on a more liberal scale made bearish sentiment again predominate at the end

Export business accounted for strength of oats

Weakness of corn and hogs had a depressing effect on provisions.

ALLOT 2.5 PER CENT OF FUND TO J. M. U.

Presbyterian Board of Education Meets in Chicago Tuesday to Discuss Plans.

Millikin university has been assigned two and one half per cent of the endowment fund raised by the General Board of Education of the Presbyterian church in the United States according to Dr A R Taylor If the full amount as planned is raised—$7 000 000 the first year this would allot Millikin $175 00[illegible] under condition that the university would raise three or four times as much

It is believed that the money raised to meet the Millikin estate offer will also count as meeting the general church offer although this has not been made clear

MEET TUESDAY

Presidents and financial secretaries of the seventeen colleges to be aided under the first year of the $35 000 000 college endowment campaign of the general board of education of the presbyterian church in the U S A will meet with secretaries of the Presbyterian educational board from New York headquarters in Chicago Nov 8

The conference will be held in the Virginia library rooms of McCormick Theological seminary and will be for the purpose of deciding on ways and means to raise the sums asked for by these Presbyterian colleges Field secretaries to aid in the campaign will also be named at this conference

The Presbyterian colleges of Alma Mich Clarksville Ark Lebanon Tenn Elkins W Va Geneseo Ill Hastings Neb Huron S D Caldwell, Idaho Decatur Ill Jamestown N D Danville Ky Easton Pa St Paul Minn Fairfield Ia Pikeville Ky Waxahachie Tex and Salt Lake City Utah will be represented

WANT [illegible]

The $35 000 000 Presbyterian endowment campaign is one of five years calling for $7 000 000 a year which will be distributed to the seventeen colleges mentioned in proportion to their needs and the proviso that the college itself raise three or four times as much This amount must be raised before March 1921 each college receiving from $25 000 to 200 000 from the Presbyterian fund

At the Chicago conference a system will be worked out so that a co-operative plan can be used whereby the work of raising the money for the individual colleges can be evenly distributed The plan will also allow campaigns to be arranged so that the field financial campaign secretaries can keep continuously at work and upon raising funds for one Presbyterian college begin aiding on the campaign for the next one in the series It is expected that by this method campaign expenses will be materially reduced and fewer men [illegible] to the work of the many

FARM BUREAU MEN PRAISE MEETING

Return From Chicago Sessions.

Macon county representatives of the farm bureau who attended the national agricultural meeting at Chicago this week returned Friday night with reports of one of the most interesting meetings which the men had ever attended

LARGE PRODUCTION

Representatives were there from thirty-four states and the feeling of the body of men representing millions of farmers was that a more conservative policy in all lines of business should be followed and they condemned the tendency of the times to reduce production and advance the cost of it at the same time

The representatives of the agricultural interests of the nation were out and out American and they condemned without hesitation the exhibitions of alien and radical tendencies throughout the country

CHICAGO AS CENTER

It was expected by the Macon county delegation that the executive committee would make Chicago the national headquarters although the Indianapolis representatives tried to have the decision made in favor of that city

Among the Macon county men who attended the meeting were A A Hill president of the Macon county farm bureau Sidney F Smith farm adviser Howard Peverly John Hufford John Rainey Charles Vulgamott William Fulk H P Ash and W C McGuire

CITY EXPECTS 12 MORE CARS COAL

All of Present Supply is Delivered.

After delivering the last bit of coal on hand Friday afternoon Commissioner Mort[illegible] reported to the other commissioners that the city was just [illegible] ahead on the deal When it is considered that 1 [illegible]00 tons of coal have been distributed by the city during the last two or three weeks the showing is mighty fine It took close figuring and careful management to accomplish this It was not planned to make a profit on the coal and the city has tried to let the consumers have it at just what it cost Of course if the time of those who were helping out had been figured in the price to the public would have been much larger but there was plenty of volunteer help by George Flint and others

The city expects to have at least a dozen more cars of coal in a day or two In the meantime those who cannot borrow from the neighbors it is suggested should arrange to get a supply of coke

Coal supplies are being cut down rapidly by the cold weather The court house boilers are now using slack The county has only a small room for coal at the court house and its supply of coal until the strike had been hauled direct from the mine about twice a week Mine run coal has been used up to the present Now only slack can be had

CHAMPAIGN DOWNS DECATUR, 35 TO 0

Gamble Runs From Kick-off for Touchdown.

BRING 50 ROOTERS

Team Plows Holes in Local Forward Line.

Champaign s high school football team outclassed Decatur Saturday morning and won 35 to 0 on Millikin field Decatur did not threaten to score until late in the last quarter when Bowman received a long pass from Peedy but was overtaken on the fifteen yard line after a run of 30 yards Aside from that the ball was in Decatur territory all the time

SCORE QUICKLY

On the kickoff Major Champaign s quarterback grabbed the ball and with good interference ran from the 40 yard line for a touchdown Gamble kicked goal Champaign then proceeded to knock the Decatur line full of holes and when after reaching the 20 yard line Pickens a colored lad made an end run for the second touchdown Gamble again kicked goal

In the second quarter Champaign continued to hit the line for consistent gains and added another touchdown and Gamble again placed it between the bars The half ended with the score Champaign 21 Decatur 0

SCORE REGULARLY

Opening the second half Decatur lost the ball on downs after the kickoff Champaign immediately marched for another goal On the third down a 5 yard run netted another touchdown Gamble continued to kick all goals netting even before the game was over At the end of the third quarter the score was 35 to 0

In the last quarter Decatur had the ball and with successful forward passes got within kicking distance of goal but March s field kick fell about one yard short On the fifteen yard line he tried again but failed
